Utah Department of Transportation 4501 S. 2700 W. Box 148260 Salt Lake City, UT 84119

Attention: Debra Boulton

Dear Debra,

When we began the animal carcass pick-up contract for UDOT, on April 1, 2005, the fuel prices at that time were \$2.06 per gallon. We had anticipated the fuel prices to increase over the summer and built our contract around the fuel price of \$2.20 per gallon. However, one week after beginning the contract, the fuel prices rose unexpectedly up to \$2.26 per gallon. Currently, the fuel prices range from \$2.50 – \$2.70 per gallon. We expect the fuel prices to continue to increase over the summer and perhaps next year. We do not want to increase our cost any more than absolutely necessary, because we understand this is a universal problem. We are proposing an increase salary of \$.03/per mile, from \$.75 to \$.78 per mile.

Before we signed the contract we asked specifically about this problem. At the time of our meeting with the UDOT officials we were assured that item #4 on Attachment C of the contract would cover a price adjustment due to the sudden increase of fuel costs. We were advised at that time to keep accurate records as to fuel increases, etc. We have kept extremely accurate records as to the price of fuel and times and place of fuel use. If you would like to see these records, we will be very happy to send them to you. We have already sent all of our records to date to Brian Phillips, who is the UDOT representative to whom we were to send our invoices.

We appreciate your willingness to review this matter and hope to hear from you as to whether or not the purposed increase is acceptable.

Thank you,

Travis Osmond
